NGUYỄN ĐỨC

MAI THỊ THANH XUÂN (Editor in Chief). **Some industrialization model in the world and Vietnam.** H.: National Politics Publishing House, 2011, 426 pg., Vb 41316.

From experience of other countries, it shows that the success of industrialization in each country depends on many factors, including the determination of the model and how to do that have a huge impact. Practice proved the country knew to choose a suitable model, would allow exploitation of inside advantages, and court external advantages, which are achieved long strides, significantly shortened period of industrialization which is largely conducted late industrialization. It was late industrialized countries have the advantage that the prior countries did not have- "the advantage of the people follow", including Vietnam. Three chapters of the book content is systematic and academic research of industrialization including:

Chapter 1 clarify rationale issues of industrialization model.

Chapter 2 present some typical industrialization models which have been applying in the world.

Chapter 3 present industrialization model on Vietnam from 1960 until now.

Chapter 4 analyzes and raises choice for industrialization model for Vietnam in period 2011-2020.

MAI LINH
